DR SWEET'S

Infallible Liniment,

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders.

FOR all of which it is a speedy and certain remedy and never fails. This Liniment is prepared from the recipe of Dr Stephen Sweet, of Connecticut, the famous bone setter and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial. This Liniment will cure rapidly and radically RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail.

FOR NEURALGIA it will afford immediate relief in every case, however distressing. It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it. TOOTHACHE also will it cure instantly. FOR NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy — acting directly upon the nervous tissues, it strengthens and revivifies the system and restores it to elasticity and vigor.

FOR PILES—As an external remedy we claim that it is the best known and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical* cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected, but the worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS yield readily to the wonderful healing properties of *DR SWEET'S INFALLIBLE LINIMENT* when used according to directions. Also, CHILBLAINS, FROSTED FEET, and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases to which all horses are liable and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION

To avoid imposition observe the signature and likeness of Dr Stephen Sweet on every label and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO Sole Proprietors, Norwich Ct. ... H H HAY Gen Ag't, Portland.

CHILDREN TEETHING

MRS. WINSLOW,

... experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,

FOR CHILDREN TEETHING,

... greatly facilitates the process of teething ... softening the gums, reducing all inflammation ... allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it mothers it will give rest to your selves, and

Relief and Health to your Infants

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine — NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW" after ten years experience AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England and has been used with NEVER FAILING SUCCESS in THOUSANDS OF CASES

It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels and Wind Colic,

and overcome convulsions which if not speedily remedied end in death. We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething, or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*do not let your prejudices or the prejudices of others* stand between you and your suffering child, and the relief that will be SURE—yes, *ABSOLUTELY SURE*—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the facsimile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world.

A natural and normal circulation of the blood is health. An abnormal that is to say an excessive or deficient circulation or stagnation of the ... is disease. To illustrate—torpidity of the Liver caused by stagnation of the blood in that organ, diseases of the Kidneys, Inflammation of the Lungs Diseases of the Heart, &c by the same cause ... Improper Circulation, and from the same cause spring all minor forms of disease. To discover a certain cure then for these diseases, the first great enquiry necessarily is What causes the blood to circulate?

For centuries this has been a matter of much study among scientific and medical men and while many experiments have been made and much labor expended upon the enquiry it has been left to this century among its other wonderful increase in knowledge to make this grand discovery also

Acknowledging that life is the gift of the Creator and that in Him we live and move and have our being we still venture the remark that as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause which remove or destroy and death the certain effect follows

Analysis of the red corpuscles of the blood show them to be compounds of iron, sulphur and phosphorus

The air we breathe we know to contain a very large proportion of oxygen

Oxygen brought in contact with a metal evolves or generates electricity

Electricity brought in contact with a muscular fiber causes it to contract.

These acts being indisputable we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood evolves electricity which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling, through the remotest arteries. What then are the causes of Consumption Dropsy Palsy Paralysis St Vitus Dance, Dyspepsia, Epilepsy Fever and Ague, &c a deficiency of the red corpuscles containing the iron sulphur and phosphorus which causes a deficiency of electricity and consequently abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—complaints of the Liver and Kidneys set in, in short, almost every type of disease but virulent fevers may be traced to this deficiency in the blood, of the corpuscles or red globules!

What causes a deficiency of corpuscles, and while we do not pretend to say that we have discovered the elixir vitæ we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! sufferers from any organic disease!! Unfortunates who have by excess of the body or mind reduced the standard of the blood and diminished the red globules Ladies suffering any of the diseases known as female complaints, be persuaded the "Blood Food" can cure you. It has cured thousands of desperate cases where all hope has been given up Do not reject it, do not throw away your only hope. The "Blood Food" is an unfailing remedy. Give it a trial

An elaborate treatise carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party on the receipt of two cent stamps Blood Food is sold by all druggists or where it cannot be had I will send 6 bottles free of expense, for $4 Price single bottle, $1. It is put up in 8 oz vials in yellow wrappers—the old kind in small bottles, in red wrappers having bound the same with—and bears the fac-simile signature of Church & Dupont upon the face of the wrapper. Beware of counterfeits and imitations.

and all Diseases of the Throat and Lungs

READ THE FOLLOWING

From Hon Levi Underwood, Lieutenant Governor of Vermont

Messrs E B. MAGOON & Co —I have used your WEEKS' MAGIC COMPOUND for severe colds and sore throats, and it has proved an efficient remedy. It is a valuable accession to the list of remedies for colds, coughs, &c. I am, &c yours, LEVI UNDERWOOD

Burlington, Oct. 8th, 1860

From Hon Joseph Poland, State Senator of Vt

I have used your WEEKS' MAGIC COMPOUND in my family, and have never found any remedy so effectual in curing coughs and sore throat, and other diseases of the lungs. JOSEPH POLAND

Montpelier, Oct. 1 1860

From Hon Timothy Redfield, late State Senator of Vt

By using your WEEKS' MAGIC COMPOUND a short time I was entirely cured of one of the severest and most obstinate colds upon my lungs that I ever experienced. I know of no remedy equal to it for coughs and lung complaints generally

TIMOTHY P REDFIELD

Montpelier, Oct 13 1860

From Rev E B Smith D D Principal of New Hampton Institution

The MAGIC COMPOUND which you furnished me last Spring, when I was suffering most severely from the effects of a long continued cold upon my lungs acted like a charm. The first night after taking it I coughed less and slept better than for weeks before, and the use of it finally removed the difficulty entirely. I should use it again in preference to any medicine I have tried when similarly afflicted. Yours truly E B SMITH

Fairfax, Vermont, April 24 1860

The Good Samaritan!

VENTILATED OVEN

COOKING STOVE!

We are sole AGENTS for BANGOR and vicinity for the celebrated Cooking Stove.

GOOD SAMARITAN.

THIS STOVE was patented by Messrs. Rathbone & Co of Albany, July 19 1859 and although but little more than a year has expired since it was first operated, its many wonderful feats in cooking have already placed it far in advance of any other Stove which has as yet been offered to a discriminating public We claim for the Good Samaritan that its economy of fuel its simplicity of arrangement and real practical utility of the conveniences which surround it, have placed it far in advance of any stove yet offered to the world We will name a few of the advantages which it possesses over any other stove, as well as some of the conveniences which attend it.

1 It has greater weight of castings, the bare stove weighing from 400 to 450 pounds.

2 Greater capacity for baking It has a very large Oven and also conveniences for baking on the top of the stove. It has also a large front roaster for baking bread pies, &c. or roasting meat, and this without danger of contaminating with the same taste, the finest delicacies being baked in the oven of the stove an advantage which no other stove using, the roaster possesses

3 Its perfect control of heat The Good Samaritan has a treble draught arrangement, which enables the operator to use as little or great a fire as he chooses. The advantage which this arrangement gives over any other economist of fuel is, that while a fire may be started in the cold stove in from one third to one-half less time the operator can, after his fire is once started lessen the draught as much as he pleases even to closing it entirely—thus giving him perfect control of the heat.

4 It has a soap stone fire back which will never burn out, and consequently will not need replacing Soap-stone is used very extensively as a lining to coal stoves, as it is well established that nothing else will stand the effect of intense heat for so great a length of time

Its accommodations for broiling are perfect and unequalled. It has a splendid arrangement for broiling on the hearth giving a perfect draught, through, under and around the gridiron into the flues of the stove keeping the coals alive and carrying off all smoke and gases arising from the food — It will also broil very nicely upon the top without the smoke entering the room This is accomplished by closing the draught, and can only be effected by a perfectly air tight stove

6 Its arrangement for the ventilation of the oven cannot be excelled. It is effected by holes in the front door of the stove through which the fresh air passes, striking against the front plate of the fire chamber (thus becoming heated before entering the oven) then through the ventilating damper into the oven of the stove where it forces all gases arising from the food which will naturally rise to the top over the front oven plate behind the fire-back into the fire-chamber where they are consumed (thus adding fuel for combustion,) and also to the perfect draught of the stove

7 The Good Samaritan has, in a single year proved itself to be the most economical as well as the most efficient stove in the world The great advantage it possesses of being able to do a greater variety of cooking at once with greater rapidity of operation is not to be lightly passed over None who have ever examined it closely can doubt for an instant but that, with ordinary usage it must last from ... 25 years They can base this belief on its great weight and the small quantity of fuel necessary to operate it—for the less fuel consumed the longer a stove will wear

8 That it possesses all the attributes and qualities of a first class stove in the height of perfection is no longer an experiment but an established fact. That it has no equal we are fully prepared to demonstrate to all impartial persons and solicit all whether wishing to purchase or not, to call and see the stove and be convinced of the truth of these statements.

We desire every house-keeper in Penobscot County to call and we think they will be fully repaid by examining the merits of this wonder of the age

BATTLE CREEK Mich Dec 21, 1858.

Prof Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago caused by a complicated chronic disease attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up in consequence of which my head has suffered extremely from cold This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short It is also coming in all over my head Feeling confident that another large bottle would restore it entirely and permanently I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle and receive to thyself the scripture declaration— the reward is to those that are kind to the widow and the fatherless

Thy friend SUSANNAH KIRBY

LIGONIER, Noble Co. Indiana, Feb 6 1859

Prof O J Wood—Dear Sir In the latter part of the year 1852, while attending the State and National Law School of the State of New York my hair from a cause unknown to me, commenced falling off very rapidly so that in the short space of 6 months the whole upper part of my scalp was almost entirely bereft of its covering and much of the remaining portion upon the side and back part of my head shortly after became gray so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance as my more intimate acquaintances were to recognize me at all

I at once made application to the most skillful physicians in the country but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate until fortunately in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use I tried one bottle, and found to my great satisfaction that it was producing the desired effect Since that time I have used seven dollars worth of your Restorative and as a result have a rich coat of very soft black hair which no money can buy

As a mark of my gratitude for your labor and skill in the production of so wonderful an article I have recommended its use to many of my friends and acquaintances who I am happy to inform you, are using it with like effect.

Very respectfully yours, A. M LATTA, Attorney and Counsellor at Law

The Restorative is put up in bottles of three sizes, viz large medium and small The small holds 1-2 a pint and retails for one dollar per bottle the medium holds at least twenty per cent more in proportion than the small retails for two dollars per bottle the large holds a quart 40 per cent more in proportion, and retails for three dollars per bottle

THE POSITION OF JUDGE TANEY. In reference to the right of the President to suspend the privilege of the writ of Habeas Corpus, it appears that Judge Taney has not always judicially entertained the peculiar views expressed in his recent opinion in the Merryman case. In that opinion, as is well known, he asserts that the privilege can only be suspended by Act of Congress and therefore impliedly censures the action of the President as in violation of constitutional law. In a former opinion, in a case arising out of the Dorr rebellion of 1842, reported in the Seventh Howard, he propounds quite another doctrine. To this judgment, an article in the Portland Advertiser calls attention, observing that it constitutes a complete antithesis to that recently delivered. That such is distinctly the case the following extract from the former opinion leaves us no room to doubt.

"When citizens of the same State are in arms against each other, and the constituted authorities are unable to execute the laws, the interposition of the United States must be prompt, or it is of little value. *The ordinary course of proceedings in courts of justice would be totally unfit for the crisis.* And the elevated office of the President, chosen as he is by the people of the United States, and the high responsibility he could not fail to feel when acting in a case of so much moment, appear to furnish as strong safeguards against a wilful abuse of power as human prudence and foresight could well provide. At all events it is conferred upon him by the Constitution and laws of the United States, and must therefore be respected and enforced in its judicial tribunals."

Pursuing the same drift of judgment, the Chief Justice goes on to say that "the right and power to employ military force in subduing a rebellion too strong to be controlled by the civil authority is essential to the existence of every government, essential to the preservation of order and free institutions, and is as necessary to the States of this Union as to any other government. And the State—which is a vital point—that presuming a state of war.

The officers engaged in military service might lawfully arrest anyone who, from the information before them, they had reasonable grounds to believe was engaged in the insurrection, and might order a house to be forcibly entered and searched, when there were reasonable grounds for supposing he might be there concealed.—*Without the power to do this martial law and the military array of the Government would be mere parade, and rather encourage attack than repel it.*"

PROTECTING PROPERTY IN THE SECEDED STATES. It is the intention of Government to protect all private property in the seceded States, and that orders have been issued to the army to commit no trespass. Some of the soldiers having made free with the vegetables of a farmer near Alexandria, the Colonel ordered a special guard to protect it, and told the farmer to defend his property by shooting the first trespasser. The men were at the same time warned of the danger they would incur, and the effect has been to secure complete immunity from depredation.

There were but three privateers at New Orleans on the 6th, viz: the Music, the Ivy and Calhoun. They are all owned by Northern men. The Music is commanded by Capt Stephen McLellan, of Thomaston, Me, the Calhoun by Capt Wilson formerly of the Minnie Schiffer and the Ivy by Capt Phillips, a Northern man. Their piratical career is now closed by the blockade.

"PORTE CRAYON."—D H Strother, whose numerous contributions, not less than the admirable illustrations which accompany them, in Harper's Magazine, have made him a favorite with the reading public, is at present in the Confederate army at Harper's Ferry. He holds a fat office in the Quartermaster's department there.

Adams Express Company does some business in carrying letters to the rebel States, for 25 cents, in addition to the 10 cents required by Reagan.

The banks of the Cotton States having been forced to subscribe to the Confederate loan, thereby losing their specie, their notes are rapidly depreciating in value, the people having no confidence in them. A Mobile paper of June 7, thus speaks of this matter:

Whatever may be the cause, the notes of our interior banks are rapidly depreciating, and at the present rate must soon be driven out of circulation unless some remedy be applied. On the 3d inst the discount was seven per cent, and the tendency was to still greater depreciation, which is now, (5th) at eight or ten per cent and refused at that. The laborers on the works now going forward at Fort Morgan a few days since were paid off, a gentleman informs us in Central Bank money, having been received in payment of Confederate bonds. These funds we were further informed, were offered in the market at ten per cent discount and no exchange could be effected for the payment of debts or purchases.

A woman had a man taken before a magistrate for coming into her house and putting her in fear of an assault. "Besides," said she, "he called me out of my name."—"But that's a civil action, madam," said the counsel for the defendant. "No it's not a civil action," cried the indignant lady, "and nobody but a lawyer would say so."

The "dash" of Lieut. Tompkins upon Fairfax Court House was a very unfortunate affair for the plans of Gen Scott, however well it served to show off the gallantry of the dragoons. It shows in a striking manner the importance of strict adherance to orders, and of neither exceeding nor disobeying them. The Washington correspondent of the New York Journal of Commerce remarks as follows upon this affair. His statements are borne out by the testimony of other writers.

"You can hardly imagine, from all that has appeared in those Northern presses which have undertaken to conduct the war, what severe criticisms have been made here, in high military quarters upon all the grand exploits which have been heralded by the Northern press. What passes with you, therefore, as a grand and glorious *coup de main*, is here known to have involved us in a complication of new and unlooked for difficulties. Lieut Tompkins' unauthorized dash into the village of Fairfax Court House, with 47 men, is of this order. First, he baffled Gen. McDowell's design, which was to capture, the next night, the whole Confederate force at the Court House, and second, he gave an alarm that spread through the valley of Virginia and down to Richmond, and brought twenty thousand men and heavy and numerous batteries into our very neighborhood. The dash into Fairfax Court House prevented General Scott's proposed seizure of the railroads diverging from the Junction at a distance of a few miles from the same. He could not risk his small force when divided, against full batteries and advancing armies. See now to what expense and effort he is driven by the gallantry of Lieut Tompkins. Thrown on the defensive he abandons the design of attacking the strong lines of the enemy, and is extending his own lines of defense from Georgetown up the Potomac, on both banks. He has thus to withdraw troops from this city, though they are needed here."

The following from the New Orleans Crescent is another specimen of the manner in which the people of the South are systematically deceived and deluded. The southern reports lie, with the utmost impudence, about every movement or action of the armies, and the people are consequently kept in the dark as to the actual condition of things.

"A Washington letter says Scott is losing over 1000 men every week from desertion alone as his troops are nearly starved and won't stay. The famous 69th Irish Regiment, from New York lost 164 men by desertion in three days and they joined the camp of the Virginia troops as two full companies at Manassas Gap Junction, which is only 15 miles from Washington city."

Gov Hicks sent a sharp message to the Legislature in reply to the order of the House appointing a committee to examine the executive records and to call for persons and papers as they might deem proper, to enable them to ascertain and report to the House the precise character of the relations established by the Executive of the State with the Federal Government since the commencement of existing troubles. He says:

I have heretofore had the honor to inform you in response to an order that I have furnished your honorable body with copies of all the correspondence between myself and the officers of the General Government which I deem necessary to lay before you. In making that response officially and in good faith, it did not occur to me that my veracity would be impugned by a coordinate branch of the State Government with which I have earnestly desired to maintain harmonious relations. I have patiently forborne to remonstrate against the bitterly malignant spirit evinced against me personally by a majority of your body. It is a matter of no consequence whatever to me what your opinion of me may be, but when your official acts reflect upon the dignity of the office which I hold, I feel it to be my duty to protect against them. In such a case forbearance on my part is not only not a virtue, but is a tacit dereliction of duty. I furnished you all the correspondence I have had with the officers of the General Government. I have omitted nothing having the slightest possible importance and am thoroughly convinced your body is fully aware of the fact that I have kept nothing back having the least bearing upon the relations between the General Government and the Executive of Maryland.

In concluding, the Governor tenders the committee every facility and says:

"An unofficial examination by my enemies of the executive records will prove the utter falsity of many malignant charges. In thus tendering facilities to your committee, however, I respectfully but firmly demand that the committee shall fully and effectually discharge the duty imposed upon it, whereby the people of this State will become convinced that although originating in partizan feeling and in an effort to offer me an indignity, your order could elicit nothing in the premises not already fully laid before the public."

A couple of Union ladies were called on to search a suspicious woman arrested at the Relay House the other day, when they found upon her person a lot of military buttons for the soldiers of the Southern Confederacy, a considerable quantity of gun caps, a large number of letters addressed to well known characters from Baltimore at Harper's Ferry, &c. These were all nicely packed and strapped around her waist, beneath her clothing.

It commences Vol 63—six months to a volume, each volume furnished with index and title page for binding—and the publisher gives notice that to meet the times this volume will be sent to subscribers for $1. This volume comprises the six best numbers of the year, and will contain seven steel engravings, six of the large double extension fashion plates, and all the winter cloak patterns. Address L. A. Godey, 323 Chestnut Street, Philadelphia.

MR. DOUGLAS'S SUCCESSOR.—The New York Tribune says:

"Orville H Browning, the new United States Senator for Illinois, has long stood at the head of the bar of that State, and was one of her prominent Whigs under the old regime. He was repeatedly a Whig candidate for Congress, but always beaten by Wm. A Richardson or Isaac N Norris, the district being decidedly Democratic, yet Mr Browning's vote was always the full strength of his party. He resides at Quincy, and must be fully sixty years old. Probably no appointment could have been more satisfactory to the Republicans of Illinois."

A letter from a Secessionist at Louisville to a paper of the same kidney, says—"I have made some inquiries as to the state of feeling existing here. Many men are on the fence, and waiting to join the strongest party."

Southern accounts of the battle at Great Bethel represent the Federal loss to have been 300 to 400 killed and wounded, and the Confederate loss only 3 killed and 12 wounded.

[From the N Y Tribune.]

A BRUSH WITH JEFF DAVIS' PIRATES!

A Rebel Privateer Captured.

HER ARRIVAL AT NEW YORK.

Her Crew in Irons on the Minnesota

The schooner Savannah, Midshipman Cook commanding, from Charleston, 4 days, has just arrived, having the Stars and Stripes floating over the secession flag. The schooner was captured by the United States brig Perry, about 60 miles outside Charleston Harbor. She was formerly a pilot boat at that port, a schooner rigged, of 54 tuns burden, and has an 18-pounder pivot gun amidships. She had been out from Charleston about 36 hours previous to her capture. During her cruise she had captured the brig Joseph, of Rockland, who was sent into Georgetown, S C. The Savannah was brought to this port by Midshipman McCook and her prize crew of United States ship Minnesota.—Her crew, about 30 in number, were put in irons on board the Minnesota. The Savannah will anchor off the Battery.

ANOTHER ACCOUNT.

Our reporter boarded the Savannah last evening, and from Isaac Seeds, acting mate, and one of the crew put on board from the Minnesota, learns some additional particulars. He was in Charleston at the time of her fitting out, and saw her lying at anchor off Fort Sumter on the 31st May. She went to sea on Sunday 3d June and the next day fell in with brig Joseph of Rockland, Maine, from Cardenas, Cuba, with a cargo of sugar consigned to Welsh & Co, Philadelphia. The Savannah set her colors so as to deceive the Joseph, and the latter hove to, and her captain went aboard the piratical craft, under the apprehension that she was in distress. No sooner had he done so than the captain of the Savannah said, 'Your vessel is taken as a prize under the authority of the Confederate States.' Eight men were put aboard the Joseph, and they were directed to take her and the crew to the nearest port, which was that of Charleston, S C. This occurred about the middle of the afternoon. Soon after the Savannah and Joseph parted company, the brig Perry, a man of war, hove in sight, a little north of the Hole in the Wall, but as her guns were run back, her portholes closed, and the vessel otherwise purposely disguised, she was mistaken for a merchantman, and the pirates, flushed with their recent success, and with so inviting a prospect of plunder before them, full of great expectations, made all sail for the supposed prize. They had got within a mile of the brig before they discovered their blunder, when they put about, more anxious to escape than they had been before to make the seizure. The Perry at once gave chase, and fired several shots, four of which were returned by the 18-pounder of the Savannah. Two of the shots from the Perry went through the foresail of the pilot boat, the shots of the Savannah did not take effect. The next occurrence was the surrender of the pirates, who were taken on board the Perry, and were subsequently transferred to the Minnesota lying off Charleston, where they were put in irons. The Minnesota put a prize crew of seven upon the Savannah, Midshipman McCook commanding, and they brought her to New York, anchoring off the Battery about three o'clock yesterday afternoon.

The number that originally shipped on the Savannah was thirty two, but eight deserted before she put to sea. There were therefore twenty four aboard when the Joseph was captured, and eight having been transferred to her, leaves sixteen in irons on the Minnesota. One, however, is on the Savannah. He says that he belongs in this city, and was impressed into the service, which is not improbable. The 18 pound swivel amidships looks quite formidable. There is a large quantity of shot and shell, grape and canister aboard. The pirates were bu[?] armed with cutlasses, knives, muskets, rifles, &c. The cabin, in fact, is the very picture of a piratical den, with these death doing implements hanging up about the walls. They had also a quantity of handcuffs for prisoners. Her owner is said to be McDonald formerly one of the pilots of the Spofford and Tileston line of Charleston steamers and well known in New York. Capt. Baker was the leader of the pirates.

Mr Seeds was in Charleston for some time previous to the fitting out of the Savannah and found it very difficult to get away. He finally got aboard a vessel bound for Nassau, New Providence. But the blockading vessel, the Minnesota, made her put back and discharge cargo. Mr Seeds however, being an experienced seaman, got himself transferred to the Minnesota. Mr S states that the people of Charleston begin to talk in quite a subdued tone in regard to the war. Business is stagnant. Butter was worth 87½ cents a pound, and lard 62½ cents. Beef was only 18 cents.—The main excitement was in regard to privateering, and the old slaver, the brig Echo, was fitting out for this purpose. She was mounted with several guns. Citizens go into this business and make a joint stock operation of it. Mr R W Williams had taken $1,000 worth of stock in the Echo.

It was reported that the Perry had recaptured the Joseph, but this lacks confirmation.

Irish Hospitality

During the American war of 1812, a soldier who had been wounded and honorably discharged being destitute and benighted, knocked at the door of an Irish farmer, when the following dialogue ensued:

Patrick—Who the divil are you, now?

Soldier—My name is John Wilson.

Patrick—And where the devil are you going from, John Wilson?

Soldier—From the American army at Frie, sir.

Patrick—And what do you want here?

Soldier—I want shelter here tonight, will you permit me to spread my blanket on your floor, and sleep tonight?

Patrick—Divil take me if I do, John Wilson.

Soldier—On your kitchen floor, sir?

Patrick—Not I by the Hill o'Howth.

Soldier—In your stable, then?

Patrick—I'll be hanged if I do that, either.

Soldier—I'm dying with hunger, give me but a bone and crust, I ask no more.

Patrick—Divil blow me, if I do, sir.

Soldier—Give me some water to quench my thirst, I beg of you.

Patrick—Beg and be hanged, I'll do no such thing.

Soldier—Sir, I have been fighting to secure the blessings you enjoy, can you so inhospitably reject me from your home?

Patrick—Reject you, who the divil talked a word about rejecting you? May be I am not the scurvy spalpeen you take me to be, John Wilson. You asked me to let you lie on my floor, my kitchen floor, or in my stable, now by the powers, d'ye think I'd let a perfect stranger do that when I have half a dozen soft beds all empty? No, by the Hill o'Howth, John, that I won't. In the second place, you told me you were dying with hunger, and wanted a bone and crust to eat, now, honey, d'ye think I'd feed a hungry man on bones and crusts when my yard is full of fat pullets, and turkeys, and pigs? No, by the powers, not I, that's flat.—In the third place you asked me for some simple water to quench my thirst, now as my water is none of the best, I never give it to a poor traveller without mixing it with plenty of wine, or something else wholesome and cooling. Come into my house, my honey; divil blow me but you shall sleep in the best feather bed I have; you shall have the best supper and breakfast that my farm can supply, which, thank Heaven is none of the worst; you shall drink as much water as you choose, provided you mix it with plenty of good wine, and provided also you prefer it. Come in, my hearty, come in.

LOCAL AND MAINE ITEMS

JOB WORK. We are prepared to execute job work of all kinds at remarkably low prices and in the neatest style.

☞ Copies of the Daily Whig—price three cts—for sale at our counting room.

☞ Our Carriers are not allowed to sell papers while on their routes.

**Subscriptions for a less time than three months 50 cents per month.

A TROT. There will be a trot at the trotting park today between the Penobscot Boy and the Pease Colt, which will probably be snugly contested. We understand that the Band will play upon the occasion.

☞ A patent has been granted to John Andrews, of Brunswick, for improved mode of securing circular saws to arbors, also one to E R Weston, of East Corinth, for improvement in the process of converting iron into steel by cementation.

☞ The Maine Baptist Convention and the Maine Baptist Missionary Society are holding their annual meeting at Bath.

☞ Mr Robinson a joiner, belonging in Cape Elizabeth, was seriously injured at the Kerosene Oil Works on Saturday. He was at work with a circular saw, when the board he was sawing slipped and was thrown violently against him striking him in the pit of the stomach.—*Portland Adv.*

ACCIDENT AT RICHMOND. A correspondent writes us that on Thursday, the 13th inst, a little child of Mr Henry Loring, in Richmond, was badly scalded and its recovery is doubtful. It pulled the tea pot filled with scalding hot tea over upon its breast and arms, burning it dreadfully. The child is only a year and half old.—*Bath Times.*

☞ Sch Hardscrabble, of Rockland, Me, from New York for Weymouth, put into New Haven 11th having been run into by a propellor on the evening of the 13th, off Faulkner's Island, and carried away bowsprit and capstan, and received other damage.

Sch Canton, of Bangor, had foremast splintered by lightning, while at anchor in Townsend harbor, 11th inst.

PATRIOTISM AT MONSON. We learn from the Dover Observer that on Saturday the 8th, two handsome national flags were raised in Monson—one 12 feet long owned by A G Houston, Esq, which floats from his store—the other 24 feet in length and 11 in width, owned and made by the ladies in Monson and now floats from a pole 87 feet high on the common near the academy. The flag was presented by Miss Sarah Bailey, who made a few appropriate remarks, which were responded to by Dr S A Patten.—After the flag was raised to its proper position the audience listened with interest to well timed and appropriate remarks from Hon John H Rice of Foxcroft and Hon A M Robinson of Dover after which cheers of great enthusiasm arose both for the speakers and for the stars and stripes.

A PATRIOTIC MOTHER. Quite an affecting incident occurred here on Monday last which shows the warm sympathy felt by our New Brunswick cousins for the cause of the Union. A young man by the name of Russell from Newburg N B came here some days ago and enlisted in Capt Freese's company of volunteers. On Monday last his mother arrived in town in search of her son. It seems that the father has recently been lost and the services of the son were very much needed at home. The meeting of the mother and son was very affecting.—She inquired if it was true that he had enlisted. He replied that it was—and that he had sworn to support the Constitution and laws of the United States and meant to show the Southern traitors how an Irishman can fight in a good cause. The mother dried her tears and told him to go ahead and she would manage to take care of the farm, and "William," said she in conclusion, "don't back out or desert for if you do I'll beat you back with the broom stick."—*Houlton Times.*

ACCIDENT.—On Monday afternoon last, as several little girls were playing on the staging of a vessel in the yard of Joseph Milder & Co, at Pembroke, some of the planks of the staging fell, causing the girls to fall about twenty feet. One of them, Laura, daughter of late Dr S B Marston, had both bones of her right leg broken.—*Machias Union.*

MASONIC.—Tuscan Lodge No 106, of F and A Masons at Addison Point, Me, was duly constituted, consecrated, and the officers installed on Thursday June 13th by R W D D G M John F Harris, assisted by brethren of Warren, Harwood and Narraguagus lodges.—*Machias Union.*

A FIGHT occurred yesterday afternoon between a party of soldiers from the barracks and some Exchange street Irishmen, in which some twenty or thirty were engaged. Fists were the most dangerous things used.

The following is another expression of the honest English feeling which breaks out at times, in spite of the selfish instincts of trade. A hard ware manufacturer at Birmingham recently wrote as follows to an importing house in Philadelphia—

"We assure you that we are filled with conflicting feelings respecting the sad events of which your country is now the scene—with horror at the contemplation of the awful catastrophe of civil war which, according to the latest news from America, is inevitable, with pride and pleasure by the noble and almost unparalleled enthusiastic patriotism displayed by the people of the North on the occasion of the President's appeal to them.

If the sad alternative of war does come, we have all our hopes and confidence centered in the North, as their success will insure the rapid progress of civilization.

But what a revolting future would the success of the South be to contemplate. God forbid it."

CLOTHING.

GENTLEMEN

Having noticed for years the fortunes of Tailors doing a credit business, and having myself proved that system to be utterly wrong for the Retail Tailoring business, I feel compelled to adopt the CASH SYSTEM. It is better for the customer who expects to pay for his garments as the amount lost by bad debts, under the credit system, is divided between the patrons and the patronized, as the former receive it by paying as much as 20 per cent less for their garments, and the latter is saved from bankruptcy. Consequently I would invite all Cash paying customers to examine the Stock of Goods now on hand, and see if the prices are not 20 per cent less than at any other Clothing House in the city. The Cutting Department is under the charge of

Mr. J. H. LARKIN,

favorably known in New York and Boston as one of the Best Artists in the Art of Cutting.

Washington, 18th

The following received here last night from ... telegraph camp, was addressed to General ...

... camp with 668 rank and file, and 29 ... and company officers, in pursuance of ... McDowell's orders to go upon the expedition with an available force of my regiments ... regiment selected was the 1st Ohio volunteers Left companies I and K with an aggregate ... men, at the crossing of the road, sent Lieut Col Parrott with two companies of ... men to Fort Church to patrol the road in that direction, stationed companies D and F, ... men to guard railroad and bridge between the crossing and Vienna, proceeded shortly to Vienna with 4 companies, viz company E, Capt Paddock, company C, Lieut Woodward, —Capt. Pease afterward joined the company, company G, Capt Bailey, company H, Capt Haslett all numbering 275 men On turning the curve slowly, within one quarter of a mile of Vienna were fired upon by a raking masked battery of, I think, three guns, with shells, round shot and grape, killing and wounding the men on the platform and in the cars, before the train could be stopped

When the train stopped, the engine could not on account of damage to some part of the machinery, draw the train out of the fire. The engine being in the rear we left the cars and retired to the right and left of the town through the woods. Finding the enemy's batteries were sustained by what appeared about a regiment of infantry and by cavalry, which force we have since understood to have been about 1500 South Carolinians, we fell back along the railroad throwing out skirmishers on both flanks. This was about 7 P M Thus we retired slowly bearing off our wounded five miles to this point, which we reached at 10 o'clock

CASUALTIES Capt Haslett's Company, two known to be killed, three wounded and five missing, Capt. Bailey's Company, three killed, two wounded and two missing, Capt Paddock's Company, an officer slightly wounded, Capt Pease's Company, Capt Pease and two men missing

The engineer, when the men left the cars, instead of returning slowly as I ordered, detached his engine with one passenger car from the rest of the disabled train and run to Alexandria, and we have heard nothing of him since Thus we are deprived of a rallying point and of all means for conveying the wounded, who had to be carried in litters and in blankets We wait here holding the road for reinforcements The enemy did not pursue I have ascertained that the enemy's force at Fairfax Court House, four miles from Vienna is now about 4000

When all the batteries opened upon us Major Hughes was at his station on the foremast platform car Col McCook was with me in one of the passenger cars. Both these officers with other commissioned officers, and many of the men, behaved most coolly under this galling fire which we could not return, and from batteries which we could not flank or turn, from the nature of the ground The approach to Vienna is through a deep long cut in the railway In leaving the cars and before they could rally, many of my men lost their haversacks or blankets, but brought off all their muskets except it may be a few that were destroyed by the enemy's first fire

[Signed] ROBT C SCHENCK, Brig General

ALEXANDRIA, 18th

The train which went to the relief of the Ohio troops, containing the 1st and 2d Connecticut regiments, proceeded to a point four miles this side of Vienna, where they met the remnants of the Ohio troops at 4 o'clock this morning It appears after the engine left last night 19 rounds were fired, the rebels made no further demonstration and the Ohio companies retired

Mr Dorwan, employed as a brakeman on the road, and who was the only one of the employees who started with the train, says the attack was made at about half past four yesterday afternoon The rebels had planted their cannon at a curve of the road It is supposed the rebels apprehended a larger force, and supposed the Ohio companies were only an advanced guard

Of the military movements consequent on the proceedings it is improper to speak

ALEXANDRIA, 18th

A train from Vienna at half past 4 this afternoon reports all quiet at that point There were five thousand Federal troops, including Rawson's battery, in the vicinity

Two more wounded men of the Ohio regiment were found in a farm house today, in the vicinity of Vienna, whither they had crawled

Private Mercer died here this P M Eight were killed and several wounded

It appears that Gen Schenck received information of the rebels being at Vienna when six miles this side of that station, by a man who hailed the train It is considered unfortunate that the Ohio regiment should have been distributed along the road before entering the enemies lines, leaving but a small force to contend with what is always to be apprehended from the course of the rebels in planting masked batteries and laying ambuscades. It was providential that the rebels themselves retired with the impression that the small force they had attacked was but the advanced of the grand army, and that the engineer in putting back was after reinforcements otherwise the small band might in reality have been cut to pieces, as was feared had been the case

WASHINGTON, 18th.

The rebels are eager for a march on Cairo or anywhere else where they can fight the Federal troops, who they think they can easily whip

The corn crops of Tennessee, Mississippi and Alabama are, in the highest degree flattering

A correspondent of the Leavenworth Conservative, writing from Kansas city Friday, says that on Thursday, two companies of cavalry and one of dragoons were sent towards Independence and when within two and a half miles of that place they came upon about 1500 rebels who fired upon them, wounding one and another had his shoulder crushed in the retreat.

The express from Independence arrived at Kansas city at 10 o'clock Friday morning which states that Capt Holloway, chief of rebels, was killed by his own men, accidentally, together with 14 men.

In the fire on the Regular troops yesterday, it seems that while the officers of the Regulars were holding a parley with the rebels, the latter attempted to cut flank the Regulars but did not succeed The Regulars retired in good order The rebels had seven pieces of cannon in sight and fired a few rounds But one shot was fired by our troops as they were not prepared to meet so large a body

HOW THEY KEEP UP THE EXCITEMENT —The following outrageous extract is from the Charleston Mercury

The Petersburg Express contains several sickening accounts of the outrages daily perpetrated upon the women of Alexandria by the wretches in uniform who now hold that place One of these narratives exceeds in enormity, every instance of devilish wickedness we have ever heard of The gratification of his lust by that member of Ellsworth's Zouaves, was under circumstances of so peculiar a nature, and the crime itself was committed so deliberately that were not the fact beyond question, we would be tempted to consider it an invention

Let these base and corrupt mercenaries continue to practice these huge enormities. Let them uncover their rotten hearts that we may know thoroughly, the real nature of the foe whom we have to kill and conquer Disgust and indignation and hatred and revenge will make our arms the stronger, and drive our steel the deeper

Warren's COUGH BALSAM!

Has been found, by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as

Asthma, Bronchitis Consumption Croup, Influenza Pleurisy Pneumonia or Inflammation the Lungs and Whooping Cough

IN these Complaints this Medicine *has no superior*, and while thus efficacious it is perfectly safe to administer to persons of all ages.

At all times of the year this Balsam is found useful, especially in the Autumn Winter and Spring, and many Colds and Coughs, which, if neglected, might finally prove fatal, may be CURED at once by a few doses of this invaluable remedy

This Cough Balsam possesses the two-fold advantage of being at once *valuable as a curative and most noble as a preventive* of all the diseases of the Throat, Lungs and Bronchia

In ASTHMA however violent and distressing, this Balsam gives prompt relief

In BRONCHITIS and PNEUMONIA it relieves the irritation, loosens the Cough, and promotes a favorable expectoration.

In CROUP its powers are almost magical This insidious disease coming literally like a thief in the night," may be speedily and effectually arrested by a few timely doses of this Balsam

In WHOOPING COUGH it moderates the paroxysms prevents the disease from assuming its severest and dangerous form and shortens its course

Every family should keep it in the house, and thus avoid the dangerous delay, occasioned by sending out for the medicine when needed for immediate use

The *best* recommendation for a good medicine is found in its use If the following certificate from one who has used it does not give you confidence in it try one bottle for yourself and you will be convinced It will cost you but *twenty five cents* and may save you as many dollars in time and doctors bills.

DIXMONT Oct 29 1859

Dr Warren Dear Sir—I have used your Cough Balsam in my practice for the year past, and can say that it is all that it is recommended to be, having never failed in affording relief whenever I have given it.

THE PERUVIAN SYRUP,

OR PROTECTED

SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,

Or Impaired and Imperfect Digestion;

FOR THE CONSEQUENT

DETERIORATION OF THE BLOOD;

AND FOR THE FOLLOWING

FORMS OF DISEASE,

Most of which originate in

DYSPEPSIA

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY, AND REQUIRING

A TONIC AND ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby has arisen from the want of such a preparation of Iron as shall enter the stomach in a PROTOXIDE state, and assimilate at once with the blood This want the PERUVIAN SYRUP supplies, and it does so in the only form in which it is possible for Iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of Iron and other medicines have been found to be of no avail.

Certificate of A A HAYES, M D, of Boston.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air and that to maintain a solution of Protoxide of Iron, without further oxidation has been deemed impossible

In the PERUVIAN SYRUP this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN, and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica.

A A HAYES Assayer to the State of Mass.
16 Boylston Street Boston.

Certificate of Jos. R. Chilton, M. D, of N York.

It is well known that it has been found very difficult to preserve in a PALATABLE form, for a desirable length of time compounds of the Protoxide of Iron—The Peruvian Syrup I am pleased to say, accomplishes this desirable end

ATWOOD'S
Quinine Tonic
BITTERS,

The Best Aromatic Tonic ever offered to the Public

Recommended by the Faculty

For its Superior Medicinal Qualities!

THIS elegant Compound which has secured the confidence and endorsement of most of the leading Physicians of New England is a palatable and efficient form of *Quinine* containing all the peculiar virtues of PERUVIAN BARK carefully combined with various *tonics* and *stomachics* and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases and in fever and ague or kindred complaints its aid is invaluable

For diarrhoea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy

One of the very best physicians in Boston has said *"that it is the very best preparation of Bitters that has ever been offered to the public"*

Put up in half pint as well as quart bottles, in order that all may convince themselves of its superior merits.

For further particulars reference is made to the printed circular

A Card to the Public.

THE amount of bodily and mental misery from a neglect of small complaints is incalculable, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailment should be had; for diseases of the body invariably affect the mind. DR MOFFAT'S VEGETABLE LIFE MEDICINES in every instance where they have been thoroughly used, have TRIUMPHED OVER DISEASE in almost all its diversified form The salutary effects of the Life Medicines have, in fact, been so universally experienced, that they have become fully established as the most easy, safe and perfect mode of treatment ever offered to the public.

THESE MEDICINES

HAVE NOW BEEN BEFORE THE PUBLIC FOR A PERIOD OF 30 YEARS, AND DURING THAT TIME HAVE MAINTAINED A HIGH CHARACTER IN ALMOST EVERY PART OF THE GLOBE FOR THE EXTRAORDINARY CURATIVE PROPERTIES WHICH THEY POSSESS

IN MANY THOUSANDS

Of certified instances, they have even rescued sufferers from the very verge of an untimely grave after all the deceptive nostrums of the day have invariably failed So great, indeed has their efficacy invariably and infallibly proved that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life and enduing them with renewed tone and vigor, that they were indebted for their name.

MOFFAT'S LIFE PILLS!!!

Are composed of Vegetable Ingredients exclusively as can be ascertained by chemical tests Their prominent qualities are those of an active and searching though perfectly mild and agreeable detergent aperient of a gentle soporific promoting the insensible perspiration of a pleasant diuretic invigorating the kidneys and bladder and of a delightful tonic cardiac, exciting appetite by the demands of active digestion, and cheering the mind with that grateful sense of renovated health which is one of the most felicitous feelings of our nature

THE PHŒNIX BITTERS!!!

So denominated from their astonishing power of creating new life and health as it were from the very ashes of the most dilapidated constitution—are more strongly tonic and more immediately invigorating than the pills containing the same choice vegetable extracts as the latter in a different modification Although really less cathartic than the LIFE PILLS they nevertheless begin to cleanse the alimentary canal much sooner generally operating slightly within three or four hours, and producing a decided sense of relief to the head and stomach and exhilarating the mind in even less time than this.

MOFFAT'S LIFE PILLS!

IN AFFECTIONS OF THE HEAD SICK HEADACHE OR NERVOUS HEADACHE, THESE PILLS WILL BE FOUND TO POSSESS THE MOST SALUTARY EFFICACY

Moffat's Phœnix Bitters!

HAVE BEEN HAPPILY USED FOR THE CURE OF FEVER AND AGUE WITH INVARIABLE SUCCESS

BILIOUS COMPLAINTS, AND A MODE OF CURE!!

☞ A well regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion and keeps the intestinal canal free from all obstructions When there is a deficiency of bile the body is constantly costive On the other hand an overabundance of bile causes frequent nausea in the stomach and often promotes very severe attacks of disease, which sometimes end in death

Dr. Moffat's Life Medicines!!!

Should be taken in the early stages of Bilious Complaints, and if persevered in strictly according to directions, will positively effect a cure

PILES! PILES!! PILES!!!

As a remedy for this most distressing and obstinate malady the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation—It is well known to hundreds in this city that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of *thirty-five years* and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He however at length tried the Medicine which is now offered to the public and he was cured in a very short time after his recovery had been pronounced not only improbable but absolutely impossible by any human means.

MOFFAT'S

Life Pills and Phœnix Bitters

CURE DYSPEPSIA by thoroughly cleansing the first and second stomachs and creating a flow of pure healthy bile instead of the stale and acrid kind; *Flatulency Loss of Appetite Heartburn Headache Ill Temper Anxiety Languor* and *Melancholy* which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure

THE LIFE MEDICINES

For bilious and liver complaints, with many well known attendants, bilious and *sick headache pain and oppression after meals giddiness dizziness heartburn loss of appetite* are acknowledged to be vastly superior to any thing ever before offered to the public

MERCURIAL DISEASES

Persons whose constitutions have become impaired by the injudicious use of Mercury will find these Medicines a perfect cure, as the never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla.

SCROFULA

The most horrible cases of *Scrofula* in which the Face, Bones and Limbs of the victim had been preyed upon by the insatiable disease, are proved by undeniable authority of the sufferers themselves to have been completely cured by these purely Vegetable Medicines after all others had been found more than useless.

Acute or Inflamatory Rheumatism

Anthrosia Chronica, or Chronic Rheumatism!

These diseases, which are among the most painful and by ignorant treatment, the most inveterate to which suffering humanity is liable are cured speedily and permanently CURED by a proper course of the LIFE PILLS and PHŒNIX BITTERS

MOFFATS PILLS & BITTERS!!!

But it is unnecessary to enumerate the many cases in which these purely vegetable medicines have been successful but let us inquire Why are they so universal in their happy effects?

Because they PURIFY THE BLOOD, and thus remove all cause of disease in the system

Because they act powerfully upon the secretions of the body, and remove all impurities at once

Because they do not reduce the system but invigorate it—thus requiring no restraint upon pleasure or business during their operation.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June 1859

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms sometimes it turned inward and distressed me at the stomach Two years ago it broke out on my head and covered my scalp and ears with one sore which was painful and loathsome beyond description I tried many medicines and several physicians but without much relief from any thing In fact the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me I took it, as you advise in small doses of a teaspoonful over a month and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear and I know by my feelings that the disease had gone from my system You can well believe that I feel what I am saying when I tell you that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours
ALFRED B. TALLEY

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr Robert M Preble writes from Salem N Y 12th Sept., 1859 that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same says he cures the common *Eruptions* by it constantly

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years"

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration Female Diseases.

Dr J B S Channing of New York City writes, I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by *ulceration of the uterus* The ulceration itself was soon cured Nothing within my knowledge equals it for these female derangements

Edward S Marrow of Newbury Ala. writes "A dangerous *ovarian tumor* on one of the females in my family which had defied all the remedies we could employ has at length been completely cured by your Extract of Sarsaparilla Our physician thought nothing but extirpation could afford relief but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual After taking your remedy eight weeks no symptom of the disease remains.

Syphilis and Mercurial Disease.

NEW ORLEANS 25th Aug st 1859

DR J C AYER Sir, I cheerfully comply with the request of your agent and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice most of the complaints for which it is recommended and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease* One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth Your Sarsaparilla, steadily taken, cured him in five weeks Another was attacked by secondary symptoms in his nose and the ulceration had eaten away a considerable part of it so that I believe the disorder would soon reach his brain and kill him But it yielded to my administration of your Sarsaparilla the ulcers healed and he is well again not of course without some disfiguration to his face A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones She too was cured entirely by your Sarsaparilla in a few weeks I know from its formula which your agent gave me that this Preparation from your laboratory must be a great remedy consequently these truly remarkable results with it have not surprised me
Fraternally yours G V LARIMER M D

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE Preston Co Va. 6th July 1859

DR J C AYER Sir I have been afflicted with a painful chronic *Rheumatism* for a long time which baffled the skill of physicians and stuck to me in spite of all the remedies I could find until I tried your Sarsaparilla One bottle cured me in two weeks and restored my general health so much that I am far better than before I was attacked I think it a wonderful medicine. J FREAM

Jules Y Getchell of St Louis writes I have been afflicted for years with an *affection of the Liver* which destroyed my health I tried every thing and every thing failed to relieve me and I have been a broken down man for some years from no other cause than *derangement of the Liver* My beloved pastor, the Rev Mr Espy advised me to try your Sarsaparilla because he said he knew you and any thing you made was worth trying By the blessing of God it has cured me and has so purified my blood as to make a new man of me I feel young again The best that can be said of you is not half good enough

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy but our space here will not admit them Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine It stimulates the vital functions into vigorous action and thus overcomes disorders which would be supposed beyond its reach Such a remedy has long been required by the necessities of the people and we are confident that this will do for them all that medicine can do

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

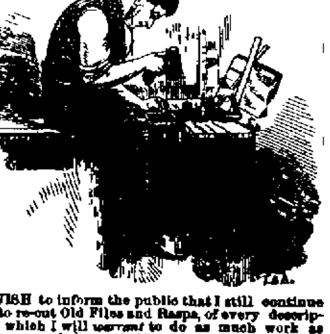

Coughs, Colds, Influenza, Hoarseness Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints that it is useless here to publish the evidence of its virtues Its unrivalled excellence for coughs and colds and its truly wonderful cures of pulmonary disease have made it known throughout the civilized nations of the earth Few are the communities, or even families among them who have not some personal experience of its effects some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs As all know the dreadful fatality of these disorders and as they know, too the effects of this remedy we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind

FILE CUTTING!

I WISH to inform the public that I still continue to re-cut Old Files and Rasps, of every description which I will *warrant* to do as much work as new ones, at from one half to two-thirds the cost. I have also on hand a large stock of new and re-cut Files, which I will sell very low, for cash

I would particularly recommend for those using Filing Machines to try my new pattern of MILL FILES, made expressly for these Machines.

All old Files sent to be recut, or orders for Files, will be promptly attended to

PROF. WOOD'S

RESTORATIVE CORDIAL,

AND

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste, it is revivifying, exhilirating and strengthening to the vital powers—It also revivifies, reinstates and renews the blood in all its original purity and thus restores and renders the system invulnerable to attacks of disease It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits It is composed entirely of vegetables, and those combined having powerful tonic and soothing properties, and consequently can never injure Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered by debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such for example as the following: Consumption, bronchitis indigestion dyspepsia, loss of appetite faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats languor, giddiness, and all that class of cases so fearfully fatal if unattended to in time called *female weaknesses and irregularities*. Also liver derangements or torpidity and liver complaints diseases of the kidneys, scalding or incontinence of the urine or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough emaciation, difficulty of breathing and indeed we might enumerate many more still but we have space only to say it will not only cure the debility following chills and fever but prevent all attacks arising from Miasmatic influences, and cure the diseases at once if already attacked And as it acts directly and persistently upon the biliary system arousing the liver to action, promoting in fact all the excretions and secretions of the system it will infallibly prevent any deleterious consequences following upon change of climate and water, hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentery habits—students, ministers, literary men And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable pleasant and efficient remedy against those ills which rob them of their beauty for beauty cannot exist without health and health cannot exist while the above irregularities continue Then again the cordial is a perfect mother's relief Taken a month or two before the final trial she will pass the dreadful period with perfect ease and safety *There is no mistake about it, this cordial is all we claim for it Mothers try it!* And to you we appeal to detect the illness or decline, not only of your daughters before it be too late but also your sons and husbands, for while the former from false delicacy often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall But the mother is always vigilant, and to you we confidently appeal for we are sure your never failing affection will unerringly point you to Prof Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need O J WOOD, Proprietor, 444 Broadway, New York and 114 Market Street, St. Louis, Mo., and sold by all good Druggists.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers her

SOOTHING SYRUP,

FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over ten years, and CAN SAY IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues We speak in this matter WHAT WE DO KNOW after ten years experience AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

THOUSANDS CASES

It not only relieves the child from pain, but invigorates the stomach and bowels corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels and Wind Colic

and overcome convulsions, which if not speedily remedied, end in death. We believe it the best and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, nor the prejudices of others* stand between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used Full directions for using will accompany each bottle.
